

G15V-100 Fullback

With a larger cone delivering an extended low end response, the 100-watt Fullback has a big, deep voice, delivering smooth and expressive tones seemingly without effort. While retaining our classic, harmonically complex and finely detailed mid-range, the larger 15" cone of the Fullback shifts this characteristic down a register. Clean sounds are warm and expressive, revealing and enhancing the qualities of your amp and guitar without unnecessary colouration. Overdrive sounds are complex and musical; push harder for a weighty, contralto growl, with a softer, warmer mid-range. Incorporating an eight hole chassis, the Fullback is the ideal choice whether you're looking for the perfect upgrade for your 15" combo, or you're looking for an interesting tonal alternative to a 12" guitar speaker.

8 Frequency Response

General Specifications

Nominal diameter	15", 381mm
Power rating	100W
Nominal impedance	Available 8 or 16
Sensitivity	99dB
Chassis type	Pressed steel
Voice coil diameter	2", 50mm
Voice coil material	Round copper
Magnet type	Ceramic
Frequency range	65-4000Hz
Resonance frequency, Fs	85Hz
DC resistance, Re	6.4

Mounting Information

Cut-out diameter	13.8" , 351mm
Diameter	15.2", 385mm
Magnet structure diameter	6.1", 156mm
Mounting slot dimensions	0.36"x0.24", 9.2mmx7.9mm
Mounting slot PCD	14.6", 369mm
Number of mounting slots	8
Overall depth	6.0", 152.9mm
Unit weight	10.6lb, 4.8kg
