WIRELESS

LEGENDARY SOUND
LARGEST SELECTION
SIMPLE TO USE

70 YEARS AGO THE GENESIS OF SOMETHING VERY SPECIAL OCCURRED IN A TINY TIN SHED IN HOPE, ARKANSAS

In 1946 Paul W. Klipsch - genius, madman and maverick - designed and hand-built the legendary Klipschorn® loudspeaker with the goal of bringing live music into his living room. He was an American audio pioneer and a true eccentric. PWK gave rise to speaker research and invention that would forever impact generations of music lovers.

Today, in this honored tradition, we move forward, pushing the boundaries of art and science - while driving new technologies - to deliver an ever-incredible listening experience. Remember great sound? We never forgot.

We are the KEEPERS OF THE SOUND®

Listeners appreciate a lack of distortion.

-Paul W. Klipsch
Founder

WE TAKE YOUR FUN VERY SERIOUSLY

DESIGNED TO MAKE YOUR LIFE SOUND FANTASTIC

Engineering and design go hand in hand at Klipsch. Both are important, but it's design that develops the personality and the character of a speaker. The Klipsch aesthetic is true to our heritage, but not stagnant. We use premium materials as one of the elements to help tell our story. We have a wonderful history of products dating back to 1946 - and the advantage of leveraging the knowledge gained since the beginning. Those base elements must be curated with the voice of this legendary brand to achieve one acoustic and tactile goal: enjoyment.

Klipsch materials are meticulously selected - from laser-etched text on metal, which can never be worn away, to a textured control knob with increased grip and ease of rotational force. We carefully choose specific wood and leather types, not only for their physical beauty, but also their durability and grain pattern. Driver colors, speaker feet, spun-copper knobs and lambswool grille cloth - every aspect must be considered.

Our goal is to allow you to experience a higher quality product. Period.

**NO WIRES
NO RECEIVER
NO HASSLE**

**HD WIRELESS SOUND IS FINALLY HERE
YOU'RE WELCOME**

Klipsch created the first ever future-proof wireless home theater system delivering unparalleled cinema-quality sound.

70 years of Klipsch acoustic development integrate wireless technology to bring you Reference Premiere HD Wireless. This award-winning system is extremely simple to set up, yet delivers lossless, high-fidelity audio.

Whether you're an audiophile that prefers stereo playback of high quality music files, a movie enthusiast that wants a true cinema experience, or just want great sound without the hassle of wires and an A/V receiver. Klipsch Reference Premiere HD Wireless will reinvent and simplify the way you enjoy your music and movies - with all the power, detail and emotion you expect from Klipsch.

Klipsch
REFERENCE PREMIERE | **HD WIRELESS**

Experience audiophile-quality sound without connecting speaker wires or purchasing a complicated A/V receiver. Each Klipsch Reference Premiere HD Wireless speaker houses its own powerful internal amplifier and delivers high-definition audio wirelessly. The built-in amplification and processing electronics are specifically tuned to maximize the performance of each speaker system.

The slender towers are rather deceptive in that you hardly get a sense of how powerful they really are – AV fanatics who crave a high-performance system that looks good and sets up in 10 minutes are bound to be thrilled with this system's spousal-acceptance factor. And yet, without question, one of the main selling points of this system is its raw power and fantastic fidelity. It really is the best of both worlds. Make no mistake, this is proper home theater sound—no sound bar or Sonos-like wireless system can do what this Klipsch WiSA system is capable of when it comes to fidelity and sheer output. Wireless or not, it is a powerful surround system that delivers a true home-theater experience to the listener.

EDITION

CELEBRATING 75 YEARS OF MUSIC AND ARTISTRY

Klipsch and Capitol Records, two iconic voices both celebrating over seven decades of bringing sound to life, partner to honor and pay tribute to the integral role music plays in shaping our lives. Music is timeless, healing and unites people across cultures. It inspires, drives and comforts us all. In celebration, Klipsch and Capitol Records will release special edition co-branded Heritage Wireless speakers featuring mid-century modern design, legendary Klipsch sound and the latest technologies. Klipsch and Capitol Records - committed to the enduring power of music and the connection it evokes.

Hz SO GOOD

EMBRACE THE LOW LIFE

Designed for high performance and placement flexibility, Klipsch wireless subwoofers deliver incredible, room-filling bass without the need for a subwoofer cable. Regardless of your room's current (or future) layout, these wireless subs give you complete freedom to find the optimal location for both maximum output and aesthetics. Connect the compact, pre-paired transmitter to the subwoofer or LFE out on your favorite component, then place the wireless subwoofer anywhere you choose and plug it into an outlet - it's that simple.

TWO AMERICAN LEGENDS CRANK IT UP

The Rock and Roll Hall of Fame and Museum is home to some of the most iconic and legendary stories and memorabilia in music history. The museum itself and Rock and Roll Hall of Fame Induction Ceremony are monuments for both preserving and celebrating the live music experience.

Similarly, Klipsch was founded to create amazing loudspeakers and headphones that could efficiently and accurately reproduce live music's power, detail and emotion. Loud and proud, these two iconic brands are a natural fit.
