**8Ω****HF Drivers - 2.0 Inches**

- 2" horn throat diameter
- 240 W continuous program power capacity
- 100 mm (4 in) aluminium voice coil
- Titanium diaphragm
- 500 - 20000 Hz response
- 108 dB sensitivity
- Neodymium magnet assembly with shorting copper cap

The DE1095TN is one of the latest versions of our premium 100mm (4.0 in) voice coil, neodymium high frequency driver. The diaphragm in this model has been completely redesigned to incorporate a bent edge voice coil former as well as new dome and surround geometry. These modifications combine to better control diaphragm displacement and deformations, resulting in lower distortion and a smoother higher frequency response above 10kHz.
