

We care about the Environment

By refraining from inserting a full printed manual with our Argon Audio products we save more than 20 tons of paper each year. You can find a full User Manual in PDF format for this product on; www.argonaudio.com

See back side of this insert for Quick start guide

Safety Safety Instructions

- Unplug this product from the wall outlet before cleaning. Do not use this product near water or moisture. Do not spill liquids on the product. Clean only with a dry cloth.
- Place the unit on a solid surface.
- Do not put it in a closed bookcase or a cabinet that may keep air from flowing through its ventilation openings.
- Do not install near any heat sources, such as radiators, heat registers, stoves or other appliances that produce heat.
- Protect the power cord from being walked on or pinched, particularly at plugs and the point where they exit from the product.
- During Lightning storms, unplug the product from the power source or if unused for long periods of time. This will prevent lightning and power-line surge damage to the product.

- Do not attempt to service this product yourself. Opening or removing covers may expose you to dangerous voltages or other hazards. Please contact the manufacturer to be referred to an authorized service center near you.
- Do not overload wall outlets, extension cords, or integral power circuits as this can result in a risk of fire or electric shock.
- Never push any object through the product openings, as this can result in fire, electric shock or damage.
- Use proper power sources. Plug the product into a proper power source, as described in the operating instructions or as marked on the product.

If there is a Lightning flash with an arrow head on the product, it's intended to alert the User of the presence of un-insulated "dangerous voltage" within the product, that might be of sufficient magnitude to constitute a risk of electric shock to persons.

If there is an Exclamation point on the product, it's intended to alert the User that there is important operating and maintenance (servicing) information in the User manual.

Quick start

Start up and Connecting your Argon Audio BT3

1. **Argon Audio BT3 has 3 functions. It can work as:**
 - a. **Bluetooth Receiver**
 - b. **Bluetooth Transmitter**
 - c. **D/A converter**
2. Connect the power supply to the Argon Audio BT3 and connect the power supply to a power outlet.
3. Power Off short press power button, Power On short press power button. Off light is red, ON light is blue
4. To pair or un-pair press and hold pairing button for 3 sec.
5. **BT receiver mode (RX):**

Connect the BT3 to an Amplifier, using either the (included) RCA cable or an optical cable.
6. The switch button on back has to be in RX setting
7. Press and hold Pair button for 3 sec until LED light on the front start flashing blue
8. Enable Bluetooth on your playback device (Mobile Phone, Tablet, Lap Top etc.).
9. Start Bluetooth device search on your playback device (Mobile Phone, Tablet, Lap Top etc.).
10. Once "Argon Audio BT3" is found and shows in the display of your device select BT3 and it will connect to your playback device. And you are ready to play.
11. **BT transmit mode (TX)**

Connect BT3 to the source you want to transmit (ex. TV) Using optical cable or analogue cable.
12. Switch button on back to TX
13. Press and hold Pair button for 3 sec until LED light on the front start flashing blue.
14. Turn on your receiving device (BT headphone) and put device in pairing mode.
15. BT3 will automatically connect to the closest BT device (the device with the strongest signal in your surrounding). So make sure to place the device you want to connect as close as possible to BT3
16. When paired and connected with your headphone it will start playback.
17. To un-pair a device press un-pair button for 3 sec and BT3 will automatically try to connect with the next device that is ready for pairing.
18. To avoid pairing with a device you don't want to pair with – turn the unwanted device off.
19. **D/A converter function**
 - a) Set the switch on backside of BT3 to TX mode.
 - b) Connect the playback music source device to BT3 "optical Audio In (Tx)", with an optical cable.
 - c) Connect the BT3 to your amplifier with a RCA cable using the "Audio Out (Rx)" on BT3
 - d) Playback will start. Blue LED will keep flashing for 90 seconds and then it will turn off. To reactivate BT function and Pairing, press and hold the Pairing button for 3 sec. LED light will start flashing again.
20. Notice that Bluetooth playback will over rule the D/A converter function. So if you have paired a BT device and start playing via BT, the D/A converter function will stop.
